9. I accept the risks and benefits of the CSA formula. **I understand that** agricultural products are dependent on several factors beyond the control of the producer, and I accept that the baskets are filled in quantity, quality and variety more or less large depending on the moment of the year and whether the season is good or bad. 13. I agree that under the ASC formula, the producer will put in the baskets what is available on the farm at the time of delivery. I understand this means that a vegetable that is put on Thursday's availability inventory may no longer be available at the time of my picking.
